ERRATUM

A new plant association of Caricion gracilis alliance of the central Apennines (Italy)

Franco Pedrotti
University of Camerino
franco.pedrotti@unicam.it

In my paper "A new plant association of Caricion gracilis alliance of the central Apennines (Italy)" (Pedrotti, 2015), the new name *Ranunculo-Caricetum buxbaumii* was invalidly published for two reasons. The first one is because the Latin word "typus" has not been used to designate the type of the association as requested after 1.01.2002 (art. 5), and the second reason is because there is no specification about which species of *Ranunculus* (*apenninus* or *pedrottii*) is the name-giving taxon (art. 3f). Here, I validate the name *Ranunculo apennini-Caricetum buxbaumii* Pedrotti ass. nov. hoc loco with the relevé 9 in Table 1 (p. 139) as the holotypus.
